OBJECTIVE

Seeking an opportunity to contribute towards the growth of the organization by using my programming and web development skills to work on various projects.

EDUCATION

Bachelor of Engineering in Computer Science **8.16**
Chitkara University

12th Class **86.8%**
O.S.D.A.V.Public School, Kaithal

10th Class **91%**
O.S.D.A.V.Public School, Kaithal

PROJECTS

Rick and Morty Universe **Jan 2024**

Developed a single-page application using the Rick and Morty API to explore character, episode, and location details with pagination.

- Utilized Redux for state management to efficiently handle API data and ensure optimal performance with minimal repeat API calls.
- Implemented search functionality with filters and pagination, providing a dynamic and responsive user experience.
- Leveraged TypeScript for type safety and improved code quality, ensuring robust and maintainable code.

Educational Website **Aug 2023**

A web application where I learn various languages like html, CSS, JavaScript.

- Created a multi-paged website using React, showcasing mastery in frontend development and designing user-friendly interfaces.
- Developed a dynamic and interactive web application.

TO DO LIST **Apr 2023**

A web application that can help you organize your tasks.

- Developed a user-friendly webpage using HTML, CSS, and Js.
- Incorporated localStorage functionality allowing for the storage of notes and tasks even after closing and reopening the browser.
